

## Les différentes règles du jeu

- **Le Domino:** Associer les horloges numériques et analogiques pour être le premier à avoir posé tous ses dominos ou en avoir le moins possible à la fin.
- **Jour et nuit:** indiquer les heures du jour ou de la nuit sur la version numérique.
- **Repères temporels:** Retrouver à chaque heure ce que l'on fait à ce moment là (lever, coucher, devoirs, bain, déjeuner...)
- **Chronologie des heures:** Organiser sur une variable (numérique ou analogique) la chronologie des heures.
- **Calcul de durées:** Après avoir organisé les dominos chronologiquement, calculer les durées entre chaque horloge.

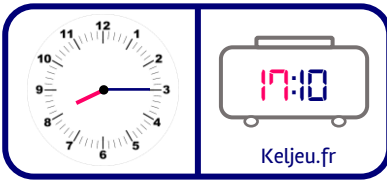

Pour construire le jeu, imprimer les 2 pages suivantes en Recto/Verso et découper chaque domino.  
Vous pouvez bien sûr inventer vos règles ou choisir vos propres horaires, grâce à la planche de dominos vierges.
